

**international network
of michelin cities**

3rd conference
15th- 17th March 2022
Santiago de Querétaro
Mexico

VILLE DE
**CLERMONT
FERRAND**

The International Network of Michelin Cities (INMC), established in 2016, promotes agreement, friendship and cooperation amongst cities from all over the world.

Convinced that only peaceful exchanges, respectful of different identities and enriched by the experiences of each of their communities, can help us overcome the contemporary challenges faced by all nations of the world, the Mayors of the Member Cities reject the use of armed force by the leaders of the Russian Federation against Ukraine.

Condemning war as a means of conflict resolution and advocating dialogue and cooperation, they share the distress of the victims of war, the dead and wounded and those affected by migration and exile. They express solidarity with all women and men whose physical integrity and freedom have been threatened, wherever they are.

At a time when climate and health are ever more prevalent, such conflicts are not only devastating for the victim countries, but are also likely to significantly affect environmental, food and health stability throughout the world.

We express our most urgent wishes for an end to the war and for peaceful negotiation and cooperation to prevail.

Santiago de Querétaro, March 17th, 2022
