HIBRIDALAB

Álava Open Innovation and Creative Transfer Centre

www.hibridalab.eus

Located in the heart of the campus of the University of the Basque Country in Vitoria-Gasteiz and conveniently located near the city centre, Hibridalab provides:

- 1,600 square metres dedicated to promoting, supporting, facilitating, executing, and implementing open innovation projects among organisations both within the same sector and across diverse sectors.
- Research spaces, workrooms, and coworking areas.
- A Fablab, featuring a Digital and Additive Manufacturing Laboratory.

- A pioneering centre dedicated to fostering open innovation by hybridising various sectors and businesses.
- Three primary areas of focus: Sustainability, Digitalisation, and Creativity.
- Hub of the Basque Alliance for the Sustainable Development Goals (SDGs).
- Based in Vitoria, it operates throughout the Basque Country with a global outlook.

HIBRIDALAB OFFERS

- Networked collaboration opportunities at the regional, national, and international levels.
- Participation in the programme 'Galdera_Ekinn / Club for Companies that Innovate'.
- Facilities for meetings, video conferences, and individual work in coworking spaces.
- A network of contacts made up of companies in the Mobility, Sustainability, and Innovation sectors.
- Opportunities to connect with organisations involved in various European programmes.
- An integral innovation ecosystem.
